

Module 122 – Project Grading Sheet (Total: 60 Points)

Student Name: Nikola Matic

Project Title: Automated Download Organizer for School

Reviewer: Christian Lindauer

Date: 06.05.2026

1. Requirements Analysis (12 pts)

1.1 Functional Requirements (5 pts)

Scoring guide:

- **5 pts:** Complete, clear, testable requirements, correctly prioritized (Must/Should/Could/Won't)
- **3–4 pts:** Mostly complete, prioritization present but inconsistent or vague
- **1–2 pts:** Incomplete, mixed with implementation details, weak prioritization
- **0 pts:** No real functional requirements
- Clear functional requirements
- Prioritized (Must / Should / Could / Won't)
- Complete and testable

Points: 5 / 5

Comments:

1.2 Non-Functional Requirements (4 pts)

Scoring guide:

- **4 pts:** Several relevant NFRs (e.g. usability, reliability, performance, security), project-specific
- **2–3 pts:** NFRs present but generic or weakly defined
- **1 pt:** Only one superficial NFR
- **0 pts:** Missing
- Performance considered
- Usability considered
- Reliability / robustness considered
- Maintainability / security considered

Points: 3 / 4

Comments: Maintainability and Security and other NFR are not clearly specified

1.3 Clarity & Structure (3 pts)

Scoring guide:

- **3 pts:** Very clear, well-structured, correct terminology
- **2 pts:** Understandable but verbose or slightly unstructured
- **1 pt:** Hard to read, unclear structure
- **0 pts:** Confusing or incomplete
- Clearly written
- Logical structure
- Correct terminology

Points: 3 / 3

Comments:

Subtotal Requirements: 11 / 12
